

Arts and Culture SHSM:

For arts and culture majors, some possible careers include:

- Apprenticeship – gem setter/goldsmith, stage sound and light technician
- College – photographer, graphic artist
- University – journalist, writer, visual artist, conductor
- Entry level workplace – photographic and film processor, printing machine operator, sign maker

Consider these career ideas when you begin to prepare for this case study.

It is important to understand that different countries may have different cultures that have different customs than we do. You must consider these customs and how you need to be sensitive to these “rules” when travelling or when dealing with foreign visitors to our country.

You should open some of these websites to see examples of the customs that other countries possess. You may consider doing your Sustainable Tourism Case study for tourists travelling to Developing Nations after viewing these sites.
