1:160 scale model train ('N' Scale). Sky was from a different photo. See the little photographer?

Grad student invents aircraft that's also a car

"I've loved flying as long as I can remember," says Carl Dietrich, who grew up watching his Dad build model airplanes on the dining room table. He is shown with a 1/5th scale model of his aircraft. Photo: Ed Quinn

World War II - USAAF

Scale: 1/24

Length: 16 3/16" inches

Wingspan: 18 1/4" inches

Price: \$299.00

This 1:50 scale model was built in five pieces in a single build volume. The parts were then connected together with CA resin. The roof sections can be removed to allow a view of the interior.
